## SMALL SUPPLIES OF REFINERS IS MARKET FACTOR

Increased Demand and Small  
Cuba Shipments Work for  
Higher Prices

(Special Correspondence from Nevers  
& Callaghan, 99 Wall Street.)  
NEW YORK, Sept. 15.—The mar-  
ket during the early days of this  
week continued its sharp upward  
trend, but the full advance, estab-  
lished on Wednesday, in the spot  
quotation of 3.8c for Cubas as compared  
with closing prices of last week was  
subsequently partially lost by an  
abrupt decline of 1-4c between trans-  
actions, and the closing quotation of  
5.27c basis 96 degrees, duty paid, for  
Cubas from store only shows a net im-  
provement of 1-8c for the week. A  
continued good demand for refined,  
both from foreign and domestic  
sources, coupled with the extremely  
light exports (750 tons) reported for  
last week from Cuba to the U. S. At-  
lantic ports, encouraged holders of  
Cubas to feel that necessities of re-  
finers, whose stocks of raws were ab-  
normally low, would lead to active  
buying and induce higher levels. Con-  
sequently in the early part of the week  
the offerings of Cubas were very lim-  
ited in quantity and so firmly held  
that although a refiner secured one  
small parcel of Cubas in port at 41-8c  
basis 96 degrees c. & f., same as paid  
at the close of last week, yet holders  
were generally insisting on 41-4c  
basis 96 degrees c. & f. for Cubas for  
shipment and 5.27c basis 96 degrees  
duty paid for Cubas from store, which  
prices refiners found it necessary to  
pay, but were apparently only able to  
secure about 125,000 bags of Cubas in  
all positions and 7000 bags of Porto  
Ricos from store, before the market  
was cleared of all offerings at this  
level. Refiners then advanced their  
views to 5.39c basis 96 degrees c. &  
f. (5.52c) to obtain additional mil-  
ling supplies. It is generally believed  
that the business at the various lev-  
els between 41-4c (5.27c) and 41-2c  
(5.52c) included larger quantities than  
were actually reported, as refiners  
grew less interested after the 41-2c  
basis had been reached, and although  
they bought moderate quantities at  
this price, the buying power was not  
sufficient to absorb all of the offer-  
ings. This evidence of a halt in the  
advance in the actual market created  
a somewhat demoralized condition in  
the option market, and under the in-  
fluence of profit taking, options de-  
clined to a point which made it pos-  
sible for exchange operators to profit-  
ably dispose of warehouse Cubas at  
5.27c basis 96 degrees, duty paid, at  
which price refiners, who had in the  
meanwhile withdrawn from the mar-  
ket, accepted about 40,000-50,000 bags  
of these sugars. Although these sales  
established 1-4c decline from previous  
transactions, no further pressure to  
sell developed, as the ideas of the ma-  
jority of Cuban holders were materi-  
ally higher and these interests were un-  
willing to follow what they considered  
unwarranted prices. The market  
closed steady at 5.27c, but appears  
to be very sensitive to developments  
on the exchange.

The weekly cable on Tuesday from  
Cuba reported receipt of 5355 tons  
and 2 Centrals grinding, as compared  
to 9038 tons receipts and 1 Central at  
work at the corresponding date last  
year. Today 1 Central is still in op-  
eration and the weather is favorable.

At the opening of the week all re-  
finers were quoting granulated at  
6.25c less 2 per cent, with the excep-  
tion of the Warner S. R. Co., who was  
still quoting 7.25c less 2 per cent.  
However, the continued good demand,  
both locally and for foreign use,  
caused the Federal S. R. Co., early in  
the week, to advance the domestic  
price of granulated to 6.40c less 2 per  
cent, which advance was followed by  
the American S. R. Co., the National  
S. R. Co. and Aruckle Bros., the  
Warner S. R. Co. declining to this  
basis to meet the others. Whereupon  
the Federal S. R. Co. advanced an ad-  
ditional 20 points to 6.60 less 2 per  
cent, but continued to accept business  
at 6.40c less 2 per cent, which all other  
interests were quoting. At the 6.25c  
basis for domestic granulated an ex-  
cellent business was done, but the  
buying was checked after the advance  
to 6.40c less 2 per cent. Since the  
first of the present month it is esti-  
mated that probably 30-35,000 tons of  
refined sugar have been sold for ex-  
port to various countries, in small-  
sized orders from day to day, at prices  
ranging from 4.95c to 5.10c net cash,  
f. o. b., in bond, but it now seems im-  
possible to buy for export at lower  
than 5.25c, the advance to this basis  
tending to limit further business.

The trading in options during the  
week reached a total of 197,350 tons.  
Closing quotations today are: Sep-  
tember 4.30c to 4.32c, October 4.30c  
to 4.32c, December 4.22c to 4.23c, Feb-  
ruary 3.89c to 3.90c and March 3.89c  
to 3.90c.

### CONTINUE HEARING IN INTER-ISLAND MATTER

To continue investigation of the  
workings of the Inter-Island Steam  
Navigation Company, a meeting of the  
public utilities commission is in ses-  
sion this afternoon.  
Attorney L. J. Warren for the Inter-  
Island Company, is representing that  
organization in answer to the com-  
plaints already made against it by  
Maui and Hawaii residents. Attorney  
C. H. Olson, representing A. W. Car-  
ter of the Parker Ranch and Harold  
W. Rice of Maui, is also at the meet-  
ing.

## IWILEI SYSTEM FOR INSPECTION STIRS CITIZENS

New Regime in "Redlight" Dis-  
trict Rouses Criticism;  
Meeting Today

Social workers, members of the  
ministerial federation and others in-  
terested in the city's welfare have  
been invited to a meeting at 3 this  
afternoon in the office of J. R. Galt,  
a member of the committee named for  
the Men's League of Central Union  
church at its last annual meeting, to  
investigate vice conditions in Honolu-  
lu. The meeting has been called by  
James A. Rath, headworker of Palama  
Settlement, at the suggestion of citi-  
zens who believe that a determined  
fight must be made against the new  
policy of medical inspection and so-  
called "regulation" at Iwilei.

One new development in the Iwilei  
situation was learned today. The city  
apparently is withdrawing from ac-  
tive participation, through the emer-  
gency hospital surgeon, in the new in-  
spection system. At first it was  
planned that the surgeon should be  
one of the inspecting physicians, but  
this plan aroused a storm of criticism  
and has apparently been dropped.

Otherwise the system is being put  
in effect and interested citizens have  
been told that Sheriff Rose believes  
the system is right and declares he  
intends to stand by it, no matter who  
objects.

### A MEDICINE OF MERIT

The great sale of Lydia E. Pink-  
ham's Vegetable Compound all over  
this land is the result of genuine  
merit. The reason is that this good  
old-fashioned root and herb medicine  
actually helps those suffering from  
the ailments peculiar to women. If  
it did not, would not the women of  
America have found it out in forty  
years, so that few of them would buy?  
—Adv.

There will be no concert rendered  
by the Hawaiian band tonight. To-  
morrow evening it will play in Ala-  
hau.

## RAPID TRANSIT TORRENS TITLE TO BE PROTESTED

To protest against the granting of  
a Torrens title to the Honolulu Rapid  
Transit & Land Company to a strip  
of land at Kakaako, the city attor-  
ney's office appeared this afternoon  
at 2 o'clock in the land court.

A M. Cristy, deputy city attorney,  
has had this matter under investiga-  
tion for several weeks and has found  
that in the Rapid Transit's petition  
and map they have failed to show cer-  
tain streets, sewers and drainages  
which pass through the land in ques-  
tion.

According to Cristy, if the title is  
given with these streets, sewers and  
drainages left out the company could  
close the entire tract to public use  
and on these ground the title will be  
protested.

Franklin E. Parker of Bay City,  
Mich., one of the best known lumber-  
men in southern Michigan, was held  
up and perhaps fatally shot recently.

## ROYAL BAKING POWDER

ABSOLUTELY PURE

Insures the most  
delicious and healthful food

By the use of Royal Baking Powder a  
great many more articles of food may be  
readily made at home, all healthful, de-  
licious, and economical, adding much  
variety and attractiveness to the menu.

The "Royal Baker and Pastry Cook"  
containing five hundred practical re-  
cipes for all kinds of baking and  
cooking, free. Address Box 589,  
Honolulu, Hawaii, or Royal Baking  
Powder Co., New York, U. S. A.
